

KEY SELLING POINTS

CofixRX Povidone-Iodine Antiviral Nasal Spray

CofixRX targets viruses where they multiply in the nasopharynx. CofixRX's active ingredient is povidone iodine. Its powerful antimicrobial properties are well known. The idea of using iodine in a nasal spray to cleanse deep into the nasal passages and creating a formula that persists in the nasopharynx while supporting immunity is the magic of **CofixRX**.

- ★ **CofixRX** is a Povidone-Iodine ANTIVIRAL nasal spray proven (laboratory tested) to destroy common cold, upper respiratory, flu and **SARS-CoV-2** (the virus that causes covid-19) and variants.
- ★ **CofixRX** provides two levels of protection: Blocks and Destroys By creating a LASTING barrier in the nasopharynx, CofixRX blocks germs and pathogens from incubating and causing infection and then destroys the virus.
- ★ **CofixRX**'s ANTIVIRAL active ingredient is 1.25% Povidone Iodine (PVP-I have been used for decades by doctors for destroying bacteria, viruses and preventing infections.)
- ★ **This is the only nasal spray to include PVP-I, Carrageenan, and Xylitol!**
- ★ All the ingredients in **CofixRX** are *Generally Recognized As Safe* (GRAS) by the FDA and promote a healthy immune system.
- ★ **CofixRX** was developed and is backed by a team of 8 board certified doctors.
- ★ **CofixRX** has been lab tested and proven effective at destroying viruses. See the **NEW Report about CofixRX (Virucidal Assay) against SARS-CoV-2 viruses and its variants – by Utah State University (at www.healthpro.cofixrx.com) as well as other studies.**
- ★ **CofixRX** is proudly made in Michigan, USA.
